

6 Amoxicillin	Tablets	Each Dispersible Tablets contains 125mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 Tablets strip pack	packed in an Aluminium - Aluminium strip pack Aluminium foils thickness-NLT 40 micron and 60 gsm	Packed in a printed mono carton (NLT 300 gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 5 ply	Store at room temperature Protected from moisture	Minimum 24 month.
7 Amoxicillin	Capsules	Each Capsule contains 500mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 capsule blister pack	Aluminium-PVDC coated PVC blister pack. PVC film thickness :NLT250 micron with 60 gsm PVDC coating Aluminium foil Thickness: NLT25 micron	10 blisters each containing packed in a printed mono carton(NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 5 ply	Store protected from moisture	Minimum 24 month.
8 Vitamine B-Complex	Capsules	Each shall contains thiamine 5gm, Riboflavin 5mg, Pyridoxine 1.5gm, Nicotinamide 50mg, calcium pantothenate 25mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043. Manufacturer in house product specification	1x10 capsule blister pack	Aluminium-PVDC coated PVC blister pack. PVC film thickness :NLT300 micron with 60 gsm PVDC coating Aluminium foil Thickness: NLT25 micron	10 blisters each containing packed in a printed mono carton(NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 3 ply	Store protected from light and moisture	Minimum 24 month.
9 Alumina and Magnesia	Tablets	Each shall contains Dried Aluminium hydroxide gel 250mg Magnesium hydroxide 250mg composition registered in DDA	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043. Manufacturer in house product specification	1x10 tablet blister pack	Aluminium-PVC film blister pack PVC thickness: NLT 250 micron and NLT 350gsm Aluminium foil Thickness: NLT25 micron and 60gsm	10 blisters each containing packed in a printed mono carton(NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 5 ply	Store at room temperature	Minimum 24 month.
10 Salbutamol	Tablets	Each tablet contains 4mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 tablet blister pack	packed in an Aluminium PVC film amber color/opaque blister pack. PVC film thickness :NLT250 micron and NLT 350gsm Aluminium foil Thickness: NLT25 micron and 60gsm	10 blisters each containing packed in a printed mono carton(NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 5 ply	Store protected from light	Minimum 24 month.
11 Aminophylline	Tablets	Each tablet contains 4mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x50 tablets in a bottle	It should be packed in high density poly ethylene bottle having inner plug with roll on cap with polypropylene inner liner	25 bottle each containing 50 aminophylline tablet are packed in cardboard carton NLT 3 ply	Store protected from moisture and light	Minimum 24 month.

12	Azithromycin	Tablets	Each tablet contains 500mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x3 tablet blister pack	Aluminum-PVDC coated PVC film blister pack. PVC film thickness: NLT 250 micron with 60 gsm PVDC coating Aluminum foil Thickness: NLT 25 micron	10 blisters each containing packed in a printed mono carton (NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 5 ply	Store at room temperature Protected from moisture	Minimum 24 month.
13	Amitriptyline	Tablets	Each tablet contains 10mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 tablet blister pack	Aluminum-PVDC coated PVC film blister pack. PVC film thickness: NLT 300 micron with 60 gsm PVDC coating Aluminum foil Thickness: NLT 25 micron	10 blisters each containing packed in a printed mono carton (NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 3 ply	store at room temperature	Minimum 24 month.
14	Trimethoprim and Sulphamethozole	Tablets	Each shall contains Trimethoprim 80mg Sulphamethozazole 400	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 tablet blister pack	Aluminum-PVDC coated amber colored / opaque PVC film blister pack PVC film thickness: NLT 250 micron with 40 gsm PVDC coating Aluminum foil Thickness: NLT 25 micron	10 blisters each containing packed in a printed mono carton (NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 5 ply	Store protected from moisture and light	Minimum 24 month.
15	Trimethoprim and Sulphamethozole	Tablets	Each shall contains Trimethoprim 160mg Sulphamethozazole 800	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 tablet blister pack	Aluminum-PVDC coated amber colored / opaque PVC film blister pack. PVC film thickness: NLT 250 micron with 60 gsm PVDC coating Aluminum foil Thickness: NLT 25 micron	10 blisters each containing packed in a printed mono carton (NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 5 ply	Store protected from moisture and light	Minimum 24 month.
16	Doxycycline	Capsules	Each capsules contains 100mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 capsule blister pack	Aluminum-PVDC Coated PVC Film Blister pack. PVC film thickness: NLT 250 micron with 60 gsm PVDC coating Aluminum foil Thickness: NLT 25 micron	10 blisters each containing packed in a printed mono carton (NLT 300gsm) for secondary packaging 100 such mono carton packed in cardboard carton NLT 3 ply	Store at room temperature Protected from moisture	Minimum 24 month.
17	Hyoscine Butylbromide	Tablets	Each Tablets contains 10mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x10 Tablets strip pack	Packed in an Aluminum-aluminum strip pack Aluminum foils thickness- NLT 80 micron, and 60 gsm	10 blisters each containing packed in a printed mono carton (NLT 300gsm) for secondary packaging 200 such mono carton packed in cardboard carton NLT 5 ply	Store at room temperature Protected from light and moisture	Minimum 24 month.

35 Lidocaine 2% Injection	Parenteral preparations	Each ml injection contains 20mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x30 ml glass vial	It should be packed in an amber color glass vial glass type 1	Each vial is packed in a printed mono carton. Patient information leaflet should be provided in secondary packaging. 50 such vial are packed in a card board carton NLT 5 ply	store in room temperature	Minimum 18 month.
36 Vitamin A capsules	Soft gelatin capsule	Each soft gelatin capsule contains 200000 IU(60mg)	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x200 soft elatin capsule	It should be packed in appropriately labeled opaque polypropylene bottle	100 bottles each containing 200 capsules are packed in a cardboard carton NLT 5 ply	store protected from heat and moisture	Minimum 24 month.
37 Povidone iodine solution	Liquid dosage form	Iodine solution contains povidone iodine 5%w/v	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x500ml HDPE bottle	It is packed in an opaque high density polyethylene bottle having tamper evident cap	25 bottle suitably segregated from each other shall be packed in a cardboard carton NLT 5 ply	Store protected from light	Minimum 2 years
38 Clotrimazole pessaries	Pessaries	Each pessary contains 100mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x6 pessaries	It should be packed in an packed in an Aluminum-aluminum strip packaging	Applicator should be packed in a printed mono carton. 100 such mono carton packed in cardboard carton NLT 3 ply a patient information leaflet should also be included in the secondary package.	store protected from heat and moisture	Minimum 24 month.
39 Clove oil	Oily liquid	It contain not less than 75% w/w not more than 85%w/w eugenol	It should be meet specific requirement of the individual product monograph given in any pharmacopoeia by DSR 2043	1x5ml glass bottle	It is packed in a glass bottle provided with ROPP cap having EPE liner	50 bottles are packed in a cardboard carton	store protected from heat and moisture	Minimum 24 month.
40 Ranitidine	Injection	Each ml injection contains 25mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x2ml glass ampoule	It shall be packed in an amber colored glass ampoule, glass type 1	10 ampoule of ranitidine injection shall be packed in a PVC tray. Each such trays are packed in printed mono carton. A patient information leaflet should also be included in the secondary package	Store protected from light	Minimum 24 month.

41	Diazepam	Injection	Each ml injection contains 5mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x2ml glass ampoule	It shall be packed in an amber colored glass ampoule, glass type 1	10 ampoule of diazepam injection shall be packed in a PVC tray. Each such trays are packed in printed mono carton. A patient information leaflet should also be included in the secondary package	Store protected from light	Minimum 24 month.
42	Metoprolol	Injection	Each ml injection contains 5mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x2ml glass ampoule	It shall be packed in an amber colored glass ampoule, glass type 2	10 ampoule of metoprolol injection shall be packed in a PVC tray. Each such trays are packed in printed mono carton. A patient information leaflet should also be included in the secondary package	Store in room temperature protected from light	Minimum 24 month.
43	Gentamicin	Injection	Each ml injection contains 40mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x2ml glass Vial	It shall be packed in a clear glass vial glass type 1	10 ampoule of ranitidine injection shall be packed in a PVC tray. Each such trays are packed in printed mono carton. A patient information leaflet should also be included in the secondary package	Store at room temperature	Minimum 24 month.
44	Hyoscine Butylbromide	Injection	Each ml injection contains 20mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x1ml glass ampoule	It shall be packed in an amber colored glass ampoule, glass type 1	10 ampoule of hyoscine butylbromide injection shall be packed in a PVC tray. Each such trays are packed in printed mono carton. A patient information leaflet should also be included in the secondary package	Store at room temperature protected from light	Minimum 24 month.
45	Furosemide	Injection	Each ml injection contains 10mg	API should meet the monograph requirement/ monograph given in any pharmacopoeia by DSR 2043	1x2ml glass ampoule	It shall be packed in an amber colored glass ampoule, glass type 1	10 ampoule of furosemide injection shall be packed in a PVC tray. Each such trays are packed in printed mono carton. A patient information leaflet should also be included in the secondary package	Store protected from light	Minimum 24 month.
